

## **Strategic Oil & Gas Ltd. Production Tests the First Sulphur Point Horizontal Well at Steen River**

**CALGARY, ALBERTA--(Marketwire - Oct. 5, 2011)** - Strategic Oil & Gas Ltd. ("Strategic" or the "Company") (TSX VENTURE:SOG) is pleased to announce drilling results from the first Sulphur Point Horizontal well at Steen River.

### **Sulphur Point Horizontal Well**

Strategic drilled 102/11-22-122-21 W5M as the first Sulphur Point Horizontal Well in Steen River.

- The well intersected an oil stained dolomite zone approximately 8 meters thick.
- The well is 662 m long and has been completed open hole.
- This well has not been acid washed or frac'd. No mult-frac completion techniques have been used.
- The well was flow tested for 8.5 hours recovering fluid at a rate of 730 BFPD. Final water cut was 25% and most of the produced water is completion fluid.
- Strategic is expecting initial oil rates of between 200 - 400 BOEPD.

Strategic owns 100% of 58 contiguous sections (14,848 hectares) with multi-zone oil and gas potential around the Steen River Astrobleme. Strategic has mapped a 4-6 m thick Sulphur point dolomite zone over the 58 sections.

### **About Strategic**

Strategic is a well capitalized junior oil and gas company, committed to growth by exploiting its light oil assets in Maxhamish, northeast BC and Steen River in northwest Alberta. Strategic's highly regarded subsurface technical team is primarily focused on implementing development plans for its light oil properties, while continuing to review other high impact light oil resource plays. Strategic's common shares trade on the TSX Venture Exchange under the symbol SOG.

***FORWARD LOOKING INFORMATION:*** *Certain information set forth in this document, including management's assessment of future plans and operations, contains forward-looking statements. By their nature, forward-looking statements are subject to numerous risks and uncertainties, some of which are beyond our control. Those risks include, without limitation, the effect of general economic conditions, risks associated with oil and gas exploration, development, production, marketing and transportation, loss of markets, industry conditions and competition, volatility of commodity prices, currency fluctuations, imprecision of reserve estimates, environmental risks, competition from other industry participants, the ability to access qualified personnel and oilfield services, decisions by regulators, and the ability to access sufficient capital from internal and external sources. Readers are cautioned not to place undue reliance on the forward-looking statements as the assumptions used in the preparation of such information, although considered reasonable at the time of preparation, may prove to be imprecise and actual results, performance or achievements could materially differ from those expressed or implied in such forward-looking statements and accordingly, no assurance can be given that any of the events anticipated by forward looking statements will transpire or occur, or if any of them do so, what benefit Strategic will derive there from. The Company does not assume the obligation to revise or update this forward-looking information after the date of this release or to revise such information to reflect the occurrence of future unanticipated events, except as may be required under applicable securities laws.*

***BOE PRESENTATION:*** *Barrel ("bbl") of oil equivalent ("boe") amounts may be misleading particularly*

*if used in isolation. All boe conversions in this report are calculated using a conversion of six thousand cubic feet of natural gas to one equivalent barrel of oil (6 mcf=1 bbl) and is based on an energy conversion method primarily applicable at the burner tip and does not represent a value equivalency at the well head.*

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
